

# CORRAL PANELS

## 6 Bar Economy Galvanized Corral Panel

Our 6 Bar Economy Galvanized Corral Panel is built with the same quality and strength as our gates. Light but strong, these panels are ideal for light confinement and are portable for travel to overnight shows and trail rides. 60" high with vertical Z-braces, these panels are built from 1-3/4" rounded high tensile strength steel tubing with superior continuous welded saddle joints. Custom loop legs prevent sinking, and panels hook up easily to our Walk-Thru Arch Gate. They're equipped with the quick pin-latch system and are available in 6' to 16' lengths.

**NOTE:**  
 Recommended for light confinement.

Length	Vertical "Z" Braces	Approx. Weight	ITEM #
6'	0	26 lbs.	6GC6
8'	1	39 lbs.	6GC8
10'	1	47 lbs.	6GC10
12'	2	54 lbs.	6GC12
14'	2	65 lbs.	6GC14
16'	2	71 lbs.	6GC16

## 6 Bar Heavy-Duty Standard Corral Panel

Our 6 Bar Heavy-Duty Standard Corral Panels are built with the same quality and strength as our Heavy-Duty Standard Bull Gate. This corral panel is ideal for the light-to-medium confinement of livestock in round pens and working areas. 60" high with vertical Z-braces, this panel features high-tensile strength steel tubing with superior continuous-welded saddle joints. A superior

e-coat finish ensures a longer life in the field while custom loop legs prevent sinking into the ground. It hooks easily to our Walk-Thru Arch Gate as well as other panels, thanks to its quick pin-latch system. These 1-3/4" round tube panels are available in red in lengths from 6' to 20'.

Length	Vertical "Z" Braces	Approx. Weight	ITEM #
6'	1	30 lbs.	RRC6
8'	1	40 lbs.	RRC8
10'	2	51 lbs.	RRC10
12'	3	61 lbs.	RRC12
14'	4	71 lbs.	RRC14
16'	4	81 lbs.	RRC16
18'	5	92 lbs.	RRC18
20'	6	102 lbs.	RRC20

**NOTES:**  
 Not available in galvanized. Recommended for light-to-medium confinement.
