

## Corral Panel Covers

Create a visual blinder when working your horse in the Equestrian World round pen assembled from 6' tall by 12' wide corral panels. Made from a rugged mesh fabric that blocks vision but allows free air circulation, these covers stretch over each corral panel and fasten firmly in place with industrial-quality Velcro® loop and hook tapes. The result is a round pen with the flexibility of a portable unit and the benefits of a constructed wooden pen. By adding or subtracting corral panels and covers, you can adjust the size of your working area to suit your horse's needs.

Description	ITEM #	Length	Height	Approx. Weight
Corral Panel Covers	HCC	12'	6'	5 lbs.

## Barn Jockey

This lightweight folding combination cart and dolly from Equestrian World is a must for dozens of barn and household chores. The Barn Jockey has features designed for use in difficult environments including 4 tie-down cleats, pneumatic tires and reinforced frame.
