

FEEDERS

Paddock Master Hay & Grain Feeder

The Paddock Master from Equestrian World is the ultimate hay and grain feeder for horses. This gray powder-coated feeder is the heaviest in its class. Almost 6 feet tall and weighing 260 pounds, this all-steel feeder can withstand the elements as well as the horses. This high capacity hay and grain feeder handles large animals as well as large volumes of feed with ease. This feeder allows your horse to eat grain or hay in a lateral plane without looking up at the food, which can cause dust and food particles to fall into eyes and nose and become an irritant.

Description	ITEM #	Height	Approx. Weight
Paddock Master Hay & Grain Feeder	HHGF	69-1/2"	260 lbs.

Portable Gate Feeder

This portable gate feeder is made of heavy polyethylene to endure the harsh elements. This feeder hangs on the side of our gates, corrals, and fences at any height. The portability, variable height and angled design make feeding much easier for all livestock from hogs to calves to horses. Available in 6 gallon or 15 gallon.

Description	ITEM #	Height	Approx. Weight	Capacity
Large Portable Gate Feeder	PGF	29"	6 lbs.	15 gallons
Small Portable Gate Feeder	SPGF	24"	4 lbs.	6 gallons
